London is your classroom

London is your classroom!

Learn English beyond the classroom with our immersive English language programme that takes learning out into the city itself. Students practise English actively and confidently in real-life situations, guided by experienced teachers, while exploring one of the world's most exciting cities.

Learning takes place across London — in museums, iconic attractions, neighbourhoods, shops, and public spaces — all used as structured, authentic learning environments.

This is English you don't just study - it's English you live!

Why choose this programme?

The city as the classroom

English learning happens across London itself, using real locations as learning spaces.

Real-world English

Students develop practical communication skills through guided tasks, role-plays, observation activities, and language challenges.

Teacher-led throughout

Qualified, experienced teachers accompany the group every day, guiding learning and supporting students at all times.

Bespoke learning materials

Each group receives a customised workbook linked directly to their itinerary, age, and level.

Suitable for all ages

Available for groups from 8 years old through to adult learners.

Short stays welcome

Programmes can run from as little as 2 nights, with an average stay of 5 nights.

High levels of care & supervision

Teachers stay with the group in the same accommodation, ensuring continuity, support, and safety.

How the programme works

Each student receives a bespoke workbook, created specifically for their group. Throughout the stay, students use it to:

- Complete language missions and observation tasks
- Take part in role-plays and real-life communication activities
- Reflect on cultural experiences through guided speaking and writing

The completed workbook becomes both a meaningful souvenir and a valuable follow-up resource for teachers back home.

"This has been a fantastic experience with an open-minded, supportive teacher who made learning accessible for all students, and I truly believe it's one of the most important and rewarding experiences they can have."
